

# DIALIT

for Sage ACT!

works with:

**install skype**

and/  
or

### Analog

- The only fully supported modem is from [www.way2call.com](http://www.way2call.com)

or

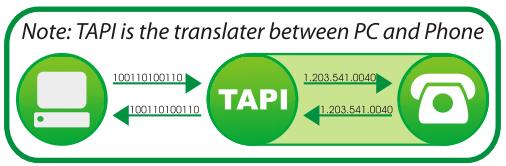

- Other standard analog modems can only be used for Outbound calls, inbound is **not** supported by the TAPI driver.

or

### Digital

- Get TAPI driver and install from Phonesupport when phone.exe Works, then install DAILIT

or

### VOIP

- Ask provider if he supports "Snom" phones or provides "Sip Data" so you can

or

- Ask your phone company if there is a TAPI driver for your existing VOIP Phone... (I.e. Cisco- Callmanager)
