## eCom Solutions

We take care of the entire eCommerce transaction including payment administration, pre-sales questions, customer service, inventory, even returns. Our secure online payment processing system processes credit cards for immediate approval.

If you offer your product in a "hard goods" format, we will maintain an inventory and ship from our location. We have no sales tax in Oregon which makes buying from our store a big plus. Our knowledgeable and professional staff answers our toll-free number from 8am-5pm PST to take orders and answer any questions your customers might have. You develop the products and let us take care of the rest.

Sales Confirmations are emailed real time as an order is placed. Plus you'll receive a monthly report prior to receiving your monthly payment.

We handle all design and production of your product page from your submitted copy and graphics. You also have an additional two hours of design time each month for any specials, bundles or new features that you would like to add to your product page.

## actaddons.com

Since 1999, actaddons.com has been the largest online marketplace for products and services that work with ACT!. Many potential customers may never know you exist unless you are listed on actaddons.com. Join the dozens of ACT! Product Partners who sell their products and services on actaddons.com.
